i never expected a ♥♥♥♥ing hentai game to be so good. i never found myself bored playing this. the core gameplay is pretty simple, you have to fight monsters to advance and the monsters drop loot that you can use to make better armor and weapons. you could breeze through the game fast, as all you have to do to beat the game is fight monsters and befriend those in the hunters guild, but theres a lot more that you can do. all of the character interactions are entertaining (and there are a lot), it feels satisfying to get better armor and weapons from all of the resources you gathered, it has a good story, and a lot more. the game does get easy once you get good gear, but that doesnt really take away much from the game. overall, this is a great game if you enjoy anime and rpgs. if you dont want hentai, just play the game without downloading the mature content pack and you can still enjoy the game.. I'm afraid that, considering how short it is, and the lack of a proper ending, I cannot recommend it considering the price. It's simply not worth the amount of money spent.. a great short game. looking forward for their future releases.

expecting, more branch routes. Romantic happy sex and prolly a longer game for their next release

would be happy if her sex parameters has other uses not just fill them up to unlock passive skills.. i had to made another steam account to play this game. Wonderfully perverted.. i had to made another steam account to play this game

Holy WOW is this game not very good. It's INCREDIBLY easy. I literally one shot bosses without even trying. The point of the game seems to be that if your "lust meter" goes above 100, you go beast mode and start getting \u2665\u2665\u2665\u2665ed by things, but it seems like literally nothing but input from the player would cause this, so, unless you're INTENTIONALLY trying to lose, you're never going to see that.

The game has this Monster Hunter Motif, which is pretty cute. Too bad it's nothing like Monster Hunter and is actually really bad. Some of the maps are even inspired by maps from Monster Hunter Freedom Unite, but the enemy designs are bad and not anything like that game.

Basically, this game is just really unbalanced. You get way too many healing items, so dying is never an issue, and even if you do, you don't get \u2665\u2665\u2665\u2665ed or anything, you just get sent back to the base camp. You never have to "manage" your lust meter because when you die in the field, it just gets reset to 0 at no consequence anyway. The game has no stakes, there is no chance for failure and because of that, I can't be immersed in it's world at all.

There's no interesting characters, no interesting scenes. The main character even says things like, "Wow, it really sucked when I was always getting \u2665\u2665\u2665\u2665ed by Monsters and then I was enslaved and all this bad stuff happened!" and it just makes me wish that the game took place THEN, because at least something interesting would happen.

I can't believe this game has received so many positive reviews and I can't believe I'M the one who has to be a "snob" about this type of stuff. The art is pretty good but I am so sick of these RPGMaker games getting a pass for having good art and not trying at all with their gameplay, especially because it would be so easy in my opinion to make sure a LINEAR GAME has balanced gameplay.

If you want a game where a girl gets beat up and \u2665\u2665\u2665\u2665ed, just go play Kunoichi Botan or get the fan translation of, "The Moral Sword, Asagi". This game is a MASSIVE disappointment. Hopefully one of these publishers gets in contact with the people who made "The Moral Sword, Asagi" and gets that published instead.. This is good civilization.. Rewriting my review as I had almost enough lube for my onahole.

The art is phenomenal and wonderful. It's not a cheap cash-grab, because steam allows H-Games on steam, but it is honestly a work of art. I was invested into the story. I wanted to see all the twists and turns of Azel's curse. The ending was amazing despite giving you a choice between A and B.

I will also say that the game is short, but it is jam packed with degenerate content. Rita would be proud. There are a ton of options for outfits which will allow you to do little minigames or extra scenes with townfolk. If you like lolis, they got it. If you like anal, they got it. If you like oral, they got it. If you like ahgao, they got it. THEY EVEN HAVE LACTATION!

Why are you jerkin' your gerkin' to games like Tomb Raider when you could be raiding Niplheim and raiding Azel's tombs.

Buy the game! The developer is amazing and the publisher is an amazing person who will answer any question that you have. He'll even take any suggestion for this release and future releases. Thank you, Happy Hand!. I started playing it, didnt expect much but it is a quality game and i am happy that i bought it.

Pros:

- No hassle with patch
- Has gamepad support
- Decent full screen
- Lot of things have voice acting in it

Cons:

- Minor translation errors, no problem for me
- Battle H-scene censored, it is getting fixed. Got This game well knowing what I was getting into so I'll be brief with this for **I'm not really a good reviewer.**

This game is actually pretty fun when you get down to the rpg aspects. Not much to say on that classic jrpg feel with turn based combat but the mechanics exclusive to this game make it really interesting and fun. Makes you at times

consider what you do so you don't reach the peak of your EP Meter and get by monsters. The Art Style of the characters is also pretty good. Goro Scares me still

Now the fun part the Mature Content

The H-Scenes are really really good if you're looking for a game for it's H-Scenes for that lonely night or just need to bust I highly recommend this game for

you.. The Hscenes are well drawn and well voiced plus the developer has other games with the same artwork. It was funny and fun and I enjoyed the trip. I would recommend to get this and the price is what you pay for when you want quality. No machine translations which I fully enjoy.

I would put this game along the lines of Treasure Hunter Claire and Melty's Quest. Those two games are very well done and this one is right up there with them. Even I dare say Cursed Armor, because while the games like this are short. Its how well the storyline and everything else falls into place.

So, sucks that it was delayed but it was well worth the wait. I can't wait to see what more this developer puts out.. very good game with good scene. Better Than Monster Hunter: World.. I love this game! The rpg system and pixels themselves make a majestic standalone jrpg. Art is a tad weird but I have quickly become a fan. More please!

The game is now out with a 30% off Launch Discount!:

The game is now out!

You are free to make any kind of review for the game you want, but if you could answer any questions in [here](#) when you write the review, it would help me give better service and information to you! For example, I can add support for other languages if there's a high demand for them!

Of course it all depends on the sales/profits, but I'll do my best to add things if a lot of people request them so make sure to mention things you would like in reviews, comments or in discussions.

Feel free to ask questions here or you can make a new discussion in the community hub too if you want!

I hope you have fun playing Niplheim's Hunter!. Spinoff DLC for Niplheim's Hunter was banned & other news:

Hello, the publisher, HappyHand here.

I have some good and bad news. The good news is that the developer and I decided to make the DLC free, some people said the price is fine and some said it's too high or way too high, but we decided to make it free as a thank you for all the support!

The bad news is that Steam banned the DLC because:

After review, we will not be able to ship your DLC Branded Azel - Lust Brand Prostitute on Steam. While we strive to ship most titles submitted to us, we found that this title features themes, imagery or descriptions that we won't distribute.

Regardless of a developer's intentions with their product, we will not distribute content that appears, in our judgment, to trade in the prurient representation or exploitation of minors.

While every product submitted is unique, if your product features this representation -- even in a subtle way that could be defined as a "grey area" -- it will be rejected by Steam.

We are not interested in working with partners that dance around the edges of what's legal. For instance, setting your game in a high-school but declaring your characters are of legal age would fall into that category and be banned.

This app has been banned and cannot be reused.

I sent Steam a support ticket asking why they would ban the game when they told me they would give me feedback and

guidance about content that they will not allow, hopefully they will reply back soon and I will get the DLC unbanned, but I'm extremely sorry about this, I thought Steam would at least let me know what's wrong with the game instead of just banning it without any guidance/discussion. Let's hope this was just a mistake on their part and it will be solved soon. In case I can't solve the ban in the support ticket, I'll ask if someone could visit Valve HQ to ask what's up or I'll visit them myself if I have to, but let's hope this will get solved soon.

I do have some other news:

Cards & Achievements are done and I'll release them soon!

I was supposed to release them together with the DLC, but I guess that's not going to happen very soon, so I'll just release them on their own. I'll make an announcement when they are released.

Chinese translation is nearly done!

It should be ready this week or early next week and I'll make an announcement when it's out!

I will also start hiring translators for other languages very soon!

The reason why the Chinese translation was already started is because the developer wanted it as soon as possible and I had very limited funds so I couldn't hire other translators until now.

I'll release 4 more games as soon as I can!

I have 4 more upcoming games, I'll post information about them as soon as I have them ready and this DLC situation is solved.

Sorry about the slow progress, things should speed up now and I'll post more announcements from now on.

Thank you for all the support and I hope you'll get to enjoy the spinoff DLC for Niplheim's hunter soon!. Niplheim's Hunter will be released on Monday, January 7!:

Steam contacted me and said there has been a misunderstanding on their part and there's no problem with shipping Niplheim's Hunter on Steam!

I asked if they could explain in detail how this whole thing happened and why it took so long to solve, but right now, I'm overjoyed that I can finally release Niplheim's Hunter on Steam so the answers can wait!

If it's not too much trouble, please tell all your friends that Niplheim's Hunter is finally coming to Steam!

I want to thank all of you for all the support and advice you gave me and I hope everyone will have fun playing Niplheim's Hunter next Monday!

Edit: Nothing has been removed and the game is the same build every other store uses after you install the free DLC.

Edit 2: The game will have the 30% off launch discount for one week!

Thank you so much for everything.

HappyHand. No contact from Steam so the game is delayed until further notice.:

Hello, HappyHand here, I have some sad news for everyone.

Steam hasn't given me any response on why the review is taking so long and what the problem with the game is, if there even is a problem. I tried sending emails to several different Valve employees, asked in Steamworks group, sent a support ticket and asked if they could just give me an estimate when they are done or if there's anything that I could say to you guys. I haven't received any response for more than a week from anyone, so sadly, the game is delayed until further notice for unknown reasons.

I'm extremely sorry about this, but there is nothing else I can do since Steam just won't contact me or even give me some date or information I could give you so this is all I can say. I waited until now hoping that Steam would at least give me some kind of confirmation I could give to you, but there's nothing from Steam and, again, I'm extremely sorry

about delaying the game again and not being able to explain the reason or even the length of the delay to all the fans and customers waiting for the game and I'm sorry for waiting until now to inform you, I just hoped Steam would give even some sort of reply. I'm so sorry.

There have been other developers/publishers that had their game delayed too or even banned from Steam. Here is a video that explains why they were delayed or banned, the video is 10 minutes long, with the first 4 and half being about Sony's recent censorship issues and the rest is about this exact situation I seem to be in:

<https://youtu.be/x3JL6wPuhhE?t=265>

So it's possible Steam is just stringing me along, delaying the release because of rogue employee(s) or that someone in Steam is actually using "We do not allow exploitation/sexualization of children in games that are in Steam" as an excuse, so Steam is basically exploiting laws/rules set to protect children because of personal agendas and that is unforgivable.

Like other games in the video, Niplheim's Hunter does not have any children in it and all characters are bunch of the pixels on the screen representing fiction, but Steam, or some people in steam, might be using the above rule as an excuse to ban games with eastern/anime style art, which is outright racist towards Japanese developers and a terrible thing to do towards the hardworking creators that create these games so fans could enjoy them.

Maybe Steam doesn't want eastern/anime styled games in their store, I will respect their decision and publish the game elsewhere, but there are hardcore games like Meltys Quest and Makina published in Steam and some games, that don't even any sex are banned, so I don't know what is going on in Steam or what I should do.

I'm sorry for asking this, but if you could spread the above video around and tell more people about this whole situation in Steam, maybe Valve will check what is going on. Until then, the game is delayed and who knows what Steam will start banning next, because they won't tell and are extremely inconsistent with the bans and rules they themselves set.

I'm sorry about the long post and I'm sorry for burdening you by asking to spread the word and most of all, I'm sorry for not being able to release the game in time and having to delay it again, this time until further notice. The game might not ever see a Steam release at this rate, but please, to prevent more situations like this, please spread the word.

Thank you for reading and I'm sorry I failed to deliver the game in time.

HappyHand

*Dec 12 edit: The developer and I decided to change the release date to "Earliest possible release: Dec 17, 2018" since the developer has a hard time believing when I said that the game is stuck in review and Steam won't contact me so the game's delayed until further review. The "Earliest possible release" said Dec 16 yesterday and it will probably say Dec 18 tomorrow and the date will keep going further away until the review is over. This is just to prove to the developer that Steam is actually not contacting me and the game is stuck.

I understand where he's coming from since I still can't believe this is happening either, but that's the reason for changing the date, I will most likely change it again, very sorry about the confusion and this whole situation.. Release Date, Price and Launch Discount:

Hello, this is HappyHand, the publisher.

Due to Steam review taking a while longer, I will have to delay the release date to 7th of December. If the review isn't over at that point, I might have to delay it further, but I will do my best so you will be able to play the game as soon as possible and I apologize for the delay.

The price for the game has been decided and the final price is 19.99\$ / 17.50€.

To celebrate the game's launch and as an apology for the delay and price change, I decided to add a 30% off Launch Discount for the first week of the game!

I hope you will have fun playing Niplheim's Hunter and I hope you have a nice day!

Best Regards,

HappyHand
